Captured review 23a2fbdcc605e65f3ac2db6bb5d92453303bca4f5a67bc11a76fc05610c8c7fd; source/counterevidence references frozen in provenance. Counterevidence IDs: RC-9a68e9e88d443203a9e8, RC-3508e63fc114227406a1. Current research may differ; no historical record is rewritten.

QUALIFIED / DEMONSTRATION OPPORTUNITY

Legacy decommissioning and migration benefit assurance

Qualified sales opportunity · Lloyds Banking Group · Banking

Demonstration commercial workspace. Public market context → opportunity hypothesis → evidence-backed potential → user-qualified opportunity → active pursuit. A stage change never makes an AI inference a confirmed customer requirement. All records in this Banking slice remain labelled demonstration data.

Evidence maturity · separate from Pipeline stage

- Research-qualified · internal review only
- Customer-validated · not established
- Pursuit-qualified · not established

Research-qualified means all ten notes/references supplied and reviewed internally. References are user assertions, not independent verification. Buyer authority, budget and customer demand are not established by this workflow. Pipeline stage is managed separately; no automatic advancement.

Based on the saved record. Unsaved inputs do not change this status.

Commercial brief

Opportunity title

Qualification readiness

100% inputs complete

Legacy decommissioning and migration benefit assurance

Business problem

Reported simplification priorities need dependency-aware sequencing and benefit validation.

Potential solution

Assess application dependencies, decommissioning readiness, service risks and benefit ownership.

Next action

Validate application waves, residual dependencies, return hurdles and accountable benefit owner.

Commercial owner (does not grant access)

Estimate assumptions / customer amount reference

MEDDICC-INFORMED / CAPTURE PLANNING

What supports qualification?

Completeness only: each criterion needs a note and supporting reference; Unknown/TBC placeholders remain missing. Not win probability, AI confidence or independent evidence verification.

▼ ✓ · **Business problem & measurable impact**

Completeness is not win probability or AI confidence.

Missing information

- All ten inputs supplied. Verify quality before confirming qualification.

User evidence assessment

Unknown

Evidence assessment rationale

Claim-level supporting evidence has not been assessed.

Provenance: Lloyds annual report landing page (citation only; primary verification pending); Lloyds FY2025 report (reviewed primary excerpt; customer demand unverified); Lloyds Accelerate 2030 priorities (reviewed primary excerpt; customer demand unverified); Lloyds strategy investment discipline (reviewed primary excerpt; customer demand unverified); Lloyds Q3 2026 statement (reviewed primary excerpt; customer demand unverified)

Source-supported public signal; customer demand unverified. Not customer-verified demand; no accepted canonical Evidence.

Pipeline stage

Qualified

☐ **I explicitly confirm this stage change and its evidence basis.**

Record commercial activity

Conversation, research, customer feedback or a committed next step. Recorded with actor and date.

Won / Lost outcome evidence

Required with explicit confirmation when closing. Demo status remains unchanged.

Save opportunity & activity

Describe the customer problem and its measurable consequence.

Business problem & measurable impact

SYNTHETIC evaluation: problem. Not customer evidence.

Supporting reference for Business problem & measurable impact

SYNTHETIC-UNVERIFIED-REF / problem

Document/page, research observation or customer activity reference. A label alone is not independent verification.

▼ ✓ · Customer strategic priority

Identify the customer-owned priority and its supporting material.

Customer strategic priority

SYNTHETIC evaluation: priority. Not customer evidence.

Supporting reference for Customer strategic priority

SYNTHETIC-UNVERIFIED-REF / priority

Document/page, research observation or customer activity reference. A label alone is not independent verification.

▼ ✓ · Economic buyer & stakeholders

Identify the accountable buyer, sponsor and decision stakeholders.

Economic buyer & stakeholders

SYNTHETIC evaluation: buyer. Not customer evidence.

Supporting reference for Economic buyer & stakeholders

SYNTHETIC-UNVERIFIED-REF / buyer

Document/page, research observation or customer activity reference. A label alone is not independent verification.

▼ ✓ · Budget or funding evidence

Record funding evidence; an estimated deal value is not a budget.

Budget or funding evidence

SYNTHETIC evaluation: funding. Not customer evidence.

Supporting reference for Budget or funding evidence

SYNTHETIC-UNVERIFIED-REF / funding

Document/page, research observation or customer activity reference. A label alone is not independent verification.

▼ ✓ · Decision criteria & process

> Qualified and active stages require all ten evidence-supported inputs and explicit confirmation. No automatic promotion.

Version 2 · Updated 10 Nov 2026, 16:55 UTC

Identify decision criteria, approval steps and who decides.

Decision criteria & process

SYNTHETIC evaluation: decision. Not customer evidence.

Supporting reference for Decision criteria & process

SYNTHETIC-UNVERIFIED-REF / decision

Document/page, research observation or customer activity reference. A label alone is not independent verification.

▼ ✓ · Competitive landscape

Record alternatives, incumbents and evidence of the competitive position.

Competitive landscape

SYNTHETIC evaluation: competition. Not customer evidence.

Supporting reference for Competitive landscape

SYNTHETIC-UNVERIFIED-REF / competition

Document/page, research observation or customer activity reference. A label alone is not independent verification.

▼ ✓ · Potential differentiation

Explain the proposition advantage and how it will be demonstrated.

Potential differentiation

SYNTHETIC evaluation: differentiation. Not customer evidence.

Supporting reference for Potential differentiation

SYNTHETIC-UNVERIFIED-REF / differentiation

Document/page, research observation or customer activity reference. A label alone is not independent verification.

▼ ✓ · Procurement timing

Record the customer process/timing source, not a modelled date.

Procurement timing

SYNTHETIC evaluation: timing. Not customer evidence.

Supporting reference for Procurement timing

SYNTHETIC-UNVERIFIED-REF / timing

Document/page, research observation or customer activity reference. A label alone is not independent verification.

▼ ✓ · Relationship strength & champion

Describe access, customer engagement and the champion evidence.

Relationship strength & champion

SYNTHETIC evaluation: relationship. Not customer evidence.

Supporting reference for Relationship strength & champion

SYNTHETIC-UNVERIFIED-REF / relationship

Document/page, research observation or customer activity reference. A label alone is not independent verification.

▼ ✓ · Next action & mutual commitment

Record a concrete next step and supporting customer engagement.

Next action & mutual commitment

SYNTHETIC evaluation: next_action. Not customer evidence.

Supporting reference for Next action & mutual commitment

SYNTHETIC-UNVERIFIED-REF / next_action

Document/page, research observation or customer activity reference. A label alone is not independent verification.

☑ **I have reviewed these supporting references and their applicability.**

Traceable change history

Source provenance and workspace are immutable. Each substantive update records actor, UTC timestamp, version and before/after fields.
