RESEARCH ASSOCIATION

01 / Enterprise anchor

Payments; Digital & assisted channels; Risk, conduct & resilience

> Source-supported context · Nine months ended / balance sheet at 30 September 2026.
> **Exact passage & provenance →**

ANALYST INTERPRETATION

02 / Business challenge

A completed acquisition and an explicit wallet priority justify investigating integration and payment outcomes; no uncovered delivery work is established.

Existing delivery may already satisfy this outcome. Inspect counterevidence before proposing an external service.

UNQUALIFIED PROPOSITION

03 / Possible service

Integrate payment and customer journeys against the existing product plan; validate acceptance, operational readiness and support handover.

Existing delivery may already satisfy this outcome. Inspect counterevidence before proposing an external service.

CUSTOMER VALIDATION REQUIRED

04 / Buying gap

Business owner, addressable spend, budget, demand and procurement: Unknown

Arrows show the analyst's investigation sequence, not established dependencies, contract relationships or buyer authority.

Develop in authorised Pipeline →

Back to Enterprise opportunity overlay →

Full research and evidence ↓

NEXT CUSTOMER VALIDATION

Ask the product owner to identify remaining integration work, decision rights and permitted partner scope before proposing a delivery tranche.

Print executive brief

Print full evidence appendix

OPPORTUNITY DEVELOPMENT / READ-ONLY PREVIEW

Develop the opportunity.

Eight read-only decision lenses. Customer facts require an authorised workspace.

ESTIMATED TCV, ACV, FUNDED SPEND, NET BENEFIT, PRICING AND MARGIN

Financial opportunity

Opportunity deal value and allocated budget are Unknown. Public corporate investment is not supplier spend.

NEXT QUALIFICATION ACTION

Request customer-owned outcome baseline, addressable spending scope and funding decision.

WHERE THE PROBLEM LIVES, ACCOUNTABLE BUSINESS LEADER AND DELIVERY OWNER

Business ownership

Actual organisational unit, outcome owner and named economic buyer are unverified. Procurement is not the business owner.

NEXT QUALIFICATION ACTION

Identify business sponsor and the accountable executive who owns the outcome.

SPONSOR, ECONOMIC BUYER, TECHNICAL INFLUENCERS, BLOCKERS AND ACCESS

Stakeholder network

Inferred decision functions: Wallet/payments product owner, Acquisition integration delivery owner, Technology/Risk and Group Sourcing. Roles are hypotheses; no verified named buyer, sponsor or relationship status.

NEXT QUALIFICATION ACTION

Build a role-based stakeholder map and validate it through customer contact.

CUSTOMER PRIORITIES, MEASURABLE OUTCOMES AND INDIVIDUAL MOTIVATIONS

Hot buttons & outcomes

Potential business outcome: A completed acquisition and an explicit wallet priority justify investigating integration and payment outcomes; no uncovered delivery work is established. Published business outcomes are context, not validated personal hot buttons.

NEXT QUALIFICATION ACTION

Test the desired outcomes with the accountable stakeholders.

INCUMBENTS, INTERNAL DELIVERY, PLATFORM PARTNERS AND COMPETITOR POSITIONING

Competitors & alternatives

Curve and internal payment teams may own the work. No integration prime, tender, contract allocation or invitation is evidenced. Internal delivery, a platform partner or no purchase may be alternatives. No active competitive procurement is established.

NEXT QUALIFICATION ACTION

Determine make/buy decision, partners, incumbency and competitive evaluation.

SERVICE SCOPE, DIFFERENTIATION, CAPABILITIES, DELIVERY OPTIONS AND PROOF

Proposed solution

Potential service: Integrate payment and customer journeys against the existing product plan; validate acceptance, operational readiness and support handover. This is a hypothesis, not an approved requirement.

NEXT QUALIFICATION ACTION

Define the smallest customer-validated work package and evidence of differentiation.

PREFERENCE CREATION, POSITIONING, PURSUIT DECISIONS AND WIN THEMES

Capture & win strategy

No customer-confirmed buying process or approved win strategy yet.

NEXT QUALIFICATION ACTION

Form a capture hypothesis after validating access and buying triggers.

ACTIONS, OWNERS, DECISION GATES, MILESTONES AND NEXT REVIEW

Pursuit execution

Research next actions exist; no authorised customer pursuit milestones are established.

NEXT QUALIFICATION ACTION

Ask the product owner to identify remaining integration work, decision rights and permitted partner scope before proposing a delivery tranche.

Review controlled Pipeline capture →

> Business owner, stakeholder motivations, funding, procurement and customer demand remain unverified. No standalone CRM record is created here.

▼ **Full research & evidence — inspect complete dossier, source periods, limitations and original assessments**

DECISION BRIEF · RESEARCH HYPOTHESIS

What merits a conversation?

PROBLEM

A completed acquisition and an explicit wallet priority justify investigating integration and payment outcomes; no uncovered delivery work is established.

WHY NOW

Acquisition completion reported; wallet strategy stated. Delivery ownership, scope and vendor access unknown. Completion reported in Q3 / forward strategy direction; integration and buying dates Unknown.

POTENTIAL SERVICE

Integrate payment and customer journeys against the existing product plan; validate acceptance, operational readiness and support handover.

EVIDENCE STATE

Source-supported context; customer demand unverified.

BUYER ACCESS

Inferred functions; no named buyer or budget authority verified. Buying authority and access require customer validation.

NEXT ACTION

Ask the product owner to identify remaining integration work, decision rights and permitted partner scope before proposing a delivery tranche.

Customer budget: Unknown · Procurement date: Unknown · Confirmed decision-maker: Unknown

Inspect counterevidence & disconfirmation · 0 mapped statements

Enterprise-specific source scope and periods apply. Summary is abbreviated; full dimensions and exact passages follow. No confirmed external supplier demand.

Qualification gap map · investigate before pursuing

Analyst interpretation, not customer validation. Affected research capability: Payments.

> we’re launching Lloyds Smart Wallet – a new type of UK digital wallet providing enhanced payments options and flexibility

Candidate company statement · 2026 management outlook; launch intention, not verified launch completion or Curve integration topology. Publication: Unknown; retrieved 2026-11-10T19:03:08.544490+00:00.

> The acquisition is expected to complete in the first half of 2026, subject to regulatory approval.

Candidate company statement · 19 November 2025 forward-looking acquisition announcement; expected H1 2026 completion is not verified completion. Publication: 2025-11-19; retrieved 2026-11-10T19:09:50.170911+00:00.
PDF page 1, line23. 19 November 2025 forward-looking acquisition announcement; expected H1 2026 completion is not verified completion. Short directly opened primary excerpt, no original byte archive or independent outcome verification.

Primary source: Lloyds proposed Curve acquisition

https://www.lloydsbankinggroup.com/assets/pdfs/investors/investor-news/2025/2025nov19-lbg-curve-acquisition.pdf

POTENTIAL BUSINESS OUTCOME

A completed acquisition and an explicit wallet priority justify investigating integration and payment outcomes; no uncovered delivery work is established.

TRIGGER AND COMPETING DELIVERY OPTIONS

Wallet launch intent is not verified completion, Curve integration architecture, supplier demand or a procurement process.

EVIDENCE AGAINST THE COMMERCIAL INFERENCE

Existing internal delivery, retained counterevidence and unclear scope may remove any external service gap. No unfilled mandate is established.

NEXT CUSTOMER-VALIDATION QUESTION

Which wallet integration outcome remains unmet, what is Curve versus Group scope, and who can authorise an external delivery tranche?

AUTHORITY, ACCESS AND MONEY

Buyer authority/access: Unknown. Budget/value: Unknown. Procurement: Unknown. External service gap: Unverified.

Research exploration is read-only. No confirmed customer requirement, allocated budget, named buyer authority, tender or current supplier contract is established by this hypothesis. Missing information is not evidence of a problem.

▼ Investigate the problem, service, buyer and supporting evidence · dimensions 01–03, 05–07, 10

01 / INVESTIGATE

Potential business problem / outcome

A completed acquisition and an explicit wallet priority justify investigating integration and payment outcomes; no uncovered delivery work is established. Potential outcome: Agreed wallet/payment journey acceptance and safe integration milestones.

02 / INVESTIGATE

Why might the enterprise act?

Acquisition completion reported; wallet strategy stated. Delivery ownership, scope and vendor access unknown. Completion reported in Q3 / forward strategy direction; integration and buying dates Unknown.

05 / INVESTIGATE

Potential technology, consulting or managed service

Integrate payment and customer journeys against the existing product plan; validate acceptance, operational readiness and support handover. Assess customer journeys, payment dependencies and integration acceptance criteria against the bank’s existing delivery plan.

06 / INVESTIGATE

Possible stakeholders and decision-makers

Inferred functions; no named buyer or budget authority verified. Wallet/payments product owner, Acquisition integration delivery owner, Technology/Risk and Group Sourcing. Verified buying authority: Not established

07 / INVESTIGATE

Supplier and competitive position — inspect scope/date

Curve and internal payment teams may own the work. No integration prime, tender, contract allocation or invitation is evidenced. Do not treat acquisition completion as an open integration contract. Validate data/payment controls and existing partner obligations.

10 / INVESTIGATE

Next commercial action

Ask the product owner to identify remaining integration work, decision rights and permitted partner scope before proposing a delivery tranche. Route to market: Product/integration sponsor discovery; an existing delivery partner route is conditional, not a known channel or framework entitlement.

03 / Evidence supporting the context

These statements support their own scope and period, not the commercial premise or customer demand. Last retrieval is a provenance review date, not a guarantee of current deployment.

source-supported disclosure

The Q3 statement treats the Curve acquisition as completed; integration scope and external procurement remain unproven.

04 / Counterevidence, contradictions & disconfirmation

No explicit contradictory claim is mapped in this snapshot. This is not corroboration or proof of an unmet need. Test existing internal delivery, alternative providers and whether the customer wants external help.

Competing periods or denominators must not be merged. Do not sell an assumed failure or control gap.

▼ **Commercial gaps and separate assessments · dimensions 08–09**

08 / Missing commercial information

Deal value: Unknown · Customer budget: Unknown · Procurement date: Unknown · Confirmed decision-maker: Unknown

- **Transaction and integration status**: Did the proposed Curve transaction complete, and what integration is approved?
  Needed: Completion announcement and customer-approved integration roadmap.
- **Customer buying evidence**: Is there a customer-acknowledged problem and a funded decision process?
  Needed: Customer meeting/requirement reference; economic buyer, funding, criteria, process, relationship and mutual next action.
- **Investment allocation**: Which investment capacity is allocated to external addressable work?
  Needed: Approved programme funding and sourcing scope, distinguishing gross savings, benefits and supplier spend.
- **Supplier contracts and roles**: What is the actual supplier workshare, obligation and renewal/exit position?
  Needed: Current customer or supplier primary disclosure, contract scope and terms where authorised.

09 / Attractiveness and actionability — separate assessments

Authored assessment 2026-11-09. Authored research assessment retained at its original date; current support/counterevidence is shown separately. Not a recomputed win probability, verified need or Pipeline qualification.

Strategic Relevance

3 / 3

Specific evidenced enterprise priority with a measurable outcome to validate

Strong integration fit and a specific acquired-business/strategic-proposition link; external scope remains speculative.

Commercial Accessibility

1 / 3

Conditional route identified; demand, invitation and eligibility unverified

Conditional route only; no candidate-specific external demand, invitation, allocated budget or seller eligibility verified.

Evidence Maturity

2 / 3

Specific primary programme/priority evidence; customer validation absent

Reviewed public disclosures support relevance; no customer confirmation of pain, scope or purchase.

No combined score, win probability or automatic qualification. Current source context supports investigation.

▼ Original research dossier, claim-level provenance and prior assessments

RESEARCH PRIORITY 5 / LLOYDS BANKING GROUP

Wallet and Curve integration outcome assurance

A completed acquisition and an explicit wallet priority justify investigating integration and payment outcomes; no uncovered delivery work is established.

Commercial interpretation / not a confirmed requirement

Potential intervention

Assess customer journeys, payment dependencies and integration acceptance criteria against the bank’s existing delivery plan.

Programme signal

Acquisition completion reported; wallet strategy stated. Delivery ownership, scope and vendor access unknown.

Estimated deal value: Unknown · **Procurement date:** Unknown

Confidence: Source-supported public signal; customer demand unverified

Rank rationale
