01 / Enterprise anchor

Risk, conduct & resilience; Technology & platforms

> Source-supported context · Final policy; implementation 18 March 2027. **Exact passage & provenance →**

ANALYST INTERPRETATION

02 / Business challenge

Reported supplier/technology risks require enterprise-specific service and exit mapping before a proposition.

Existing delivery may already satisfy this outcome. Inspect counterevidence before proposing an external service.

UNQUALIFIED PROPOSITION

03 / Possible service

Integrate service/supplier inventories, incident data and reporting controls against the existing readiness plan; measure completeness and reporting accuracy.

Existing delivery may already satisfy this outcome. Inspect counterevidence before proposing an external service.

CUSTOMER VALIDATION REQUIRED

04 / Buying gap

Business owner, addressable spend, budget, demand and procurement: Unknown

Arrows show the analyst's investigation sequence, not established dependencies, contract relationships or buyer authority.

Develop in authorised Pipeline →

Back to Enterprise opportunity overlay →

Full research and evidence ↓

NEXT CUSTOMER VALIDATION

Confirm regulated-entity applicability, completed readiness work and any funded data-integration gap; stop if already covered.

Print executive brief

Print full evidence appendix

OPPORTUNITY DEVELOPMENT / READ-ONLY PREVIEW

Develop the opportunity.

Eight read-only decision lenses. Customer facts require an authorised workspace.

ESTIMATED TCV, ACV, FUNDED SPEND, NET BENEFIT, PRICING AND MARGIN

Financial opportunity

Opportunity deal value and allocated budget are Unknown. Public corporate investment is not supplier spend.

NEXT QUALIFICATION ACTION

Request customer-owned outcome baseline, addressable spending scope and funding decision.

WHERE THE PROBLEM LIVES, ACCOUNTABLE BUSINESS LEADER AND DELIVERY OWNER

Business ownership

Actual organisational unit, outcome owner and named economic buyer are unverified. Procurement is not the business owner.

NEXT QUALIFICATION ACTION

Identify business sponsor and the accountable executive who owns the outcome.

SPONSOR, ECONOMIC BUYER, TECHNICAL INFLUENCERS, BLOCKERS AND ACCESS

Stakeholder network

Inferred decision functions: Operational resilience/third-party risk owner, Regulatory reporting owner, Data integration and Group Sourcing. Roles are hypotheses; no verified named buyer, sponsor or relationship status.

NEXT QUALIFICATION ACTION

Build a role-based stakeholder map and validate it through customer contact.

CUSTOMER PRIORITIES, MEASURABLE OUTCOMES AND INDIVIDUAL MOTIVATIONS

Hot buttons & outcomes

Potential business outcome: Reported supplier/technology risks require enterprise-specific service and exit mapping before a proposition. Published business outcomes are context, not validated personal hot buttons.

NEXT QUALIFICATION ACTION

Test the desired outcomes with the accountable stakeholders.

INCUMBENTS, INTERNAL DELIVERY, PLATFORM PARTNERS AND COMPETITOR POSITIONING

Competitors & alternatives

Existing risk tooling, internal compliance teams and incumbent specialists may already cover the requirement. No tool replacement or workshare is evidenced. Internal delivery, a platform partner or no purchase may be alternatives. No active competitive procurement is established.

NEXT QUALIFICATION ACTION

Determine make/buy decision, partners, incumbency and competitive evaluation.

SERVICE SCOPE, DIFFERENTIATION, CAPABILITIES, DELIVERY OPTIONS AND PROOF

Proposed solution

Potential service: Integrate service/supplier inventories, incident data and reporting controls against the existing readiness plan; measure completeness and reporting accuracy. This is a hypothesis, not an approved requirement.

NEXT QUALIFICATION ACTION

Define the smallest customer-validated work package and evidence of differentiation.

PREFERENCE CREATION, POSITIONING, PURSUIT DECISIONS AND WIN THEMES

Capture & win strategy

No customer-confirmed buying process or approved win strategy yet.

NEXT QUALIFICATION ACTION

Form a capture hypothesis after validating access and buying triggers.

ACTIONS, OWNERS, DECISION GATES, MILESTONES AND NEXT REVIEW

Pursuit execution

Research next actions exist; no authorised customer pursuit milestones are established.

NEXT QUALIFICATION ACTION

Confirm regulated-entity applicability, completed readiness work and any funded data-integration gap; stop if already covered.

Review controlled Pipeline capture →

> Business owner, stakeholder motivations, funding, procurement and customer demand remain unverified. No standalone CRM record is created here.

▼ **Full research & evidence — inspect complete dossier, source periods, limitations and original assessments**

DECISION BRIEF · RESEARCH HYPOTHESIS

What merits a conversation?

PROBLEM

Reported supplier/technology risks require enterprise-specific service and exit mapping before a proposition.

WHY NOW

Risk-disclosure signal; no programme announcement established 18 March 2027 regulatory commencement; no Lloyds contract or delivery timetable evidenced.

POTENTIAL SERVICE

Integrate service/supplier inventories, incident data and reporting controls against the existing readiness plan; measure completeness and reporting accuracy.

EVIDENCE STATE

Source-supported context; customer demand unverified.

BUYER ACCESS

Inferred functions; no named buyer or budget authority verified. Buying authority and access require customer validation.

NEXT ACTION

Confirm regulated-entity applicability, completed readiness work and any funded data-integration gap; stop if already covered.

Customer budget: Unknown · Procurement date: Unknown · Confirmed decision-maker: Unknown

> **Conflicting findings — inspect before acting.** Unresolved scope/time tension, not proven same-period contradiction

Inspect counterevidence & disconfirmation · 2 mapped statements

Enterprise-specific source scope and periods apply. Summary is abbreviated; full dimensions and exact passages follow. No confirmed external supplier demand.

PRA incident and third-party policy · Final policy; implementation 18 March 2027 · https://www.bankofengland.co.uk/prudential-regulation/publication/2026/march/operational-incident-and-third-party-reporting-policy-statementFCA resilience and reporting update · Page last updated 15 September 2026; March 2027 reporting commencement · https://www.fca.org.uk/firms/operational-resilienceLloyds Envoy announcement · Announced platform

> Research exploration is read-only. No confirmed customer requirement, allocated budget, named buyer authority, tender or current supplier contract is established by this hypothesis. Missing information is not evidence of a problem.

▼ Investigate the problem, service, buyer and supporting evidence · dimensions 01–03, 05–07, 10

01 / INVESTIGATE

Potential business problem / outcome

Reported supplier/technology risks require enterprise-specific service and exit mapping before a proposition. Potential outcome: Accurate material-arrangement inventory and incident reporting readiness.

02 / INVESTIGATE

Why might the enterprise act?

Risk-disclosure signal; no programme announcement established 18 March 2027 regulatory commencement; no Lloyds contract or delivery timetable evidenced.

05 / INVESTIGATE

Potential technology, consulting or managed service

Integrate service/supplier inventories, incident data and reporting controls against the existing readiness plan; measure completeness and reporting accuracy. Investigate critical-service dependencies, control responsibilities, exit testing and resilience evidence.

06 / INVESTIGATE

Possible stakeholders and decision-makers

Inferred functions; no named buyer or budget authority verified. Operational resilience/third-party risk owner, Regulatory reporting owner, Data integration and Group Sourcing. Verified buying authority: Not established

07 / INVESTIGATE

Supplier and competitive position — inspect scope/date

Existing risk tooling, internal compliance teams and incumbent specialists may already cover the requirement. No tool replacement or workshare is evidenced. A statutory date is not a customer buying window. Do not assert non-compliance or a missing supplier-control capability.

10 / INVESTIGATE

Next commercial action

Confirm regulated-entity applicability, completed readiness work and any funded data-integration gap; stop if already covered. Route to market: An entity-specific readiness discussion through the accountable owner; involve qualified regulatory specialists before offering delivery.

03 / Evidence supporting the context

These statements support their own scope and period, not the commercial premise or customer demand. Last retrieval is a provenance review date, not a guarantee of current deployment.

source-supported disclosure

PRA incident/third-party reporting changes take effect in March 2027. Confirm each regulated entity’s scope and existing readiness.

UK regulated firms; legal-entity applicability must be confirmed · Final policy; implementation 18 March 2027

08 / Missing commercial information

Deal value: Unknown · Customer budget: Unknown · Procurement date: Unknown · Confirmed decision-maker: Unknown

- **Current primary verification**: Which claims are supported by the latest original publications?
  Needed: Retrieve and quote-locate current Lloyds annual, interim and latest trading updates; capture publication dates, periods and content hashes.
- **Customer buying evidence**: Is there a customer-acknowledged problem and a funded decision process?
  Needed: Customer meeting/requirement reference; economic buyer, funding, criteria, process, relationship and mutual next action.
- **Investment allocation**: Which investment capacity is allocated to external addressable work?
  Needed: Approved programme funding and sourcing scope, distinguishing gross savings, benefits and supplier spend.
- **Regulatory applicability**: Which current versions, effective dates and entities are in scope?
  Needed: Retrieve FCA Consumer Duty/resilience publications, PRA/BoE rules and HM Treasury designations.
- **Supplier contracts and roles**: What is the actual supplier workshare, obligation and renewal/exit position?
  Needed: Current customer or supplier primary disclosure, contract scope and terms where authorised.

09 / Attractiveness and actionability — separate assessments

Authored assessment 2026-11-09. Authored research assessment retained at its original date; current support/counterevidence is shown separately. Not a recomputed win probability, verified need or Pipeline qualification.

Strategic Relevance

2 / 3

Supported priority/context; specific outcome or urgency incomplete

Potential data-integration and managed-reporting fit. Regulatory subject expertise and an actual Lloyds readiness gap must be demonstrated.

Commercial Accessibility

1 / 3

Conditional route identified; demand, invitation and eligibility unverified

Conditional route only; no candidate-specific external demand, invitation, allocated budget or seller eligibility verified.

Evidence Maturity

2 / 3

Specific primary programme/priority evidence; customer validation absent

Reviewed public disclosures support relevance; no customer confirmation of pain, scope or purchase.

No combined score, win probability or automatic qualification. Current source context supports investigation.
